

Moonshine Capital - Brand Voice Guide

Moonshine Capital: Brand Voice & Tone Guide

1. Core Identity

Moonshine Capital is the anti-corporate financing marketplace. We are the rebels, the misfits, and the rainmakers of the business funding world. We offer a no-BS, transparent, and hustler-focused approach to getting businesses funded and helping ambitious people build their own million-dollar funding agencies (without the MLM cringe).

Our vibe: Comic-book grit meets Wall-Street hustle. Money-charged, rebel energy. We speak the language of founders, freelancers, gig-workers, and operators who are grinding to make payroll, expand their empires, and win their freedom.

2. Tone & Personality

- **Direct & Unfiltered:** We don't use bank-speak or corporate jargon. We tell it exactly how it is. No throat-clearing, no fluff.
- **Empowering & Sizzling:** Our copy slaps. It's emotionally charged and designed to make the reader want to take action right now.
- **Rebellious but Professional:** We position ourselves against the slow, out-of-touch traditional banking system, but we never compromise on the professionalism required to handle people's money and livelihoods.

- **Practical & Actionable:** We deal in real strategies—how to get funded before rent is due, how to build an agency, how to scale. We give the "Game Plan."

3. Do's and Don'ts

DO:

- Use plain, punchy English. Short sentences. High impact.
- Use words that evoke speed, freedom, and hustle (e.g., *arsenal, blueprint, empire, rainmaker, launchpad*).
- Call out the pain points directly (e.g., *before the rent's late again, traditional banking red tape, MLM cringe*).
- Include clear, bold CTAs (e.g., *Get Funded Now, Start Your Own Funding Agency, Book Your Launch Plan*).
- Maintain compliance and trust (e.g., don't promise guaranteed approvals or give financial/legal advice, but do offer *pathways, options, and strategies*).

DON'T:

- Don't use corporate "SEO oatmeal" or stuffy banker language.
- Don't sound like a scammy get-rich-quick scheme. Always emphasize the *work, the hustle, and the reality* of building a business.
- Don't bury the lead. Get straight to the value proposition.
- Don't over-promise things we can't control (e.g., *guaranteed funding in 10 minutes, 100% approval*).

4. Key Vocabulary & Phrasing

- **Words we love:** Hustle, Empire, Rainmaker, Misfit, Maverick, Blueprint, Arsenal, Accelerator, Launchpad, Frictionless, No-BS.
- **Phrases we use:**
 - "Without the MLM cringe."
 - "Before the rent's late again."
 - "People who don't suck."

- "Get paid to empower businesses."
- "The unfiltered truth."

5. Audience Personas & How to Speak to Them

- **The Capital Seeker (SMBs, Founders, Creators):** Focus on speed, ease, and overcoming traditional bank hurdles. *Message: "We get you the capital you need to scale, without the red tape."*
- **The Future Loan Broker (Affiliates, Agents, Hustlers):** Focus on independence, uncapped earning potential, and the reality of the grind. *Message: "Build a business that builds you back. We give you the playbook, you bring the hustle."*
